ELWOOD™

SEATING

Scan to see Elwood take a real beating in our abuse test - and survive!

Or view on our website
www.seatsandbenches.com

- A robust, low maintenance timber effect seat.
- Co-ordinates with other Glasdon products.

www.seatsandbenches.com

ELWOOD seat combines traditional timber effect seat ends with hardwearing seat slats making it ideal for use in parks and open spaces.

Elwood slats are available in a choice of 100% recycled Enviropol®* material or Timberpol®** material and the ends are manufactured from long lasting Everwood™# material. This combination creates a strong seat with a unique, realistic timber-grain finish that requires minimal maintenance.

Elwood seat is vandal and weather resistant, it will not rot, warp or crack and does not need regular surface treatments.

The frame is manufactured in mild steel with an Armortec®## corrosion-resistant coating to give added protection and a long service life.

Co-ordinating Products

Elwood seat can be co-ordinated with the Sherwood™ litter bin and Glenwood™ post, providing you with a stylish and uniform range of street furniture.

Brown Enviropol and Dark Oak Elwood Seat with Dark Oak Hooded Top Sherwood Litter Bin

Light Oak Glenwood Post

Specifications

Length:	1985mm

Total seat weight including:	
Enviropol slats:	75kg
Timberpol slats:	85kg
Supplied:	Fully assembled for immediate use

Materials

Seat Slats: Recycled Enviropol or Recycled Timberpol
 Seat Ends: Everwood
 Seat Frame: Mild steel with Armortec coating

Fixing Options

We strongly recommend ground fixing for safety and security. Elwood seat is supplied as standard with surface fixing bolts for securing to a flat, level concrete base and tamper-resistant cover caps for added security. Gravel ballasting is also available to provide additional security against unauthorised movement or theft.

*Enviropol® material is manufactured predominantly from post-consumer plastics. By balancing these uncontaminated recycled waste materials, the result is a remarkably versatile product with many applications and benefits. Enviropol will not chip or rust, is easy to clean and never needs painting.

**Timberpol® is a durable and strong composite material containing a minimum of 70% recycled hardwood sawdust and recycled polypropylene. It is self-coloured and virtually maintenance free.

#Everwood™ offers the visual appeal of wood, with the durability and low maintenance properties of a polymer material. Unlike wood, Everwood is produced from weather-resistant materials and will not rot or require regular protective coatings.

##Armortec® corrosion resistant coating is specially formulated to extend the life of Glasdon metal products and components used externally.

Elwood Colour Options

Seat Slat Colour Options: Black Enviropol, Brown Enviropol, Timberpol.
 Seat End Colour Options: Black Oak, Dark Oak, Light Oak.

Black Oak Ends

Dark Oak Ends

Light Oak Ends
