

CITADEL[™]

Industrial Cabinets

Citadel™ Steel Cabinets.

Protection and security for electrical equipment, metering and monitoring devices and network technologies.

With IP56 rated and vented models available, this new standard range offers a cost-effective solution to the secure housing of equipment for a variety of industrial applications.

Citadel cabinets are available in five different industry standard sizes.

Manufactured in plastic coated steel with a 2mm stainless steel chassis and featuring all-round double skinned insulation and reinforced door, Citadel cabinets are strong and resilient.

For optimum security the Citadel includes a T-Handle with 3 point locking system as standard.

Forward Sloping Roof

- Prevents liquids and debris from collecting on top.

IP56 Rated

- Protected against harmful dust and from strong jets of water.

Plastisol External Finish

- Provides resistance against abrasions and vandalism.
- Minimal maintenance without the need for coating or painting.

Flush Back

- Allows for the enclosure to be sited against walls without dirt traps if required.

2mm Chassis

- Stainless Steel (Grade 304)
- Minimises corrosion from ground point.
- Provides a strong robust base with integrated fixings points to secure into the ground.
