# Cup Recycling Solutions

New **Guide to Cup Recycling** Inside

# Join the CUPrising... Guide to Cup Recycling

We can help you implement an efficient cup recycling programme with our range of dedicated and multi-purpose solutions, designed to help you increase your cup recycling rates and save money on your waste collection too.

## 1. Disposable Cup Audit

A waste audit focused on the volume of disposable cups passing through the organisation will help identify the type of solution required.

**Request our help and advice with a free no obligation waste management audit here: [uk.glasdon.com/waste-management-audit](http://uk.glasdon.com/waste-management-audit)**

## 2. Finding the Right Solution

One of the most effective ways to recycle used disposable paper cups is to ensure they are emptied and disposed of in a separate container away from other waste.

We can help with solutions that are specifically designed for front and back of house, areas of high footfall and communal areas.

**Can't find what you need? We're here to help and we can tailor solutions to your requirements.**

## 3. Liaising with Waste Contractors

More UK waste contractors than ever before are now making provisions for paper cup recycling.

Ask your contractor about the most efficient way you can collect cups to minimise contamination. Could your disposal costs also be reduced?

# Facts and Stats\*

## 4. Making it Happen

**Positioning:** Through the audit we will help you identify where your cup recycling containers should be located to maximise usage.

**Communicate:** Ensure customers, visitors and employees know about your cup recycling programme and how to dispose of their cup correctly. You can add signage and graphics to many of our cup recycling bins and stations.

# Nexus<sup>®</sup> 100 Cup Recycling Station

This stylish, dedicated cup recycling station can collect up to 200 used cups. Due to its larger capacity, the Nexus 100 Cup Recycling Station is ideal for venues with conference rooms, exhibition centres, offices, campus facilities and other communal areas.

**Station includes:**

4 removable cup stacking tubes for up to 50\* cups each.

1 x 8 litre waste liquid side pod, 1 x 8 litre general waste or mixed recycling side pod.

Choice of standard graphics.

**Optional:** Foamex sign kit with standard or personalised graphics.

\*Quantity based on 16oz cups. Station takes small, medium and large cups.

# Eco Nexus® Cup Recycling Station

The Eco Nexus Cup Recycling Station is a cost effective, space-saving solution to cup recycling and waste collection. Combining four waste streams in one unit, it can help to increase paper cup recycling rates while reducing collection costs.

## **Station includes:**

2 cup collecting tubes to stack up to 120\* used cups.

1 x 8 litre waste liquid reservoir.

2 separate compartments for additional waste and recycling.

**Optional:** Aperture graphics and foamex sign kit and graphics.

## Nexus® 100 Recycling Station

Improve paper cup recycling in your facility with this multi-purpose recycling station. It combines the popular Nexus 100 recycling bin with dedicated cup recycling features to offer an all in one solution for waste collection and recycling where you need it.

**Station includes:**

- 100 litre recycling bin.
- Centrum or Nexus Cup Stacker.
- 8 litre waste liquid side pod.
- Choice of standard graphics.

**Optional:** Foamex sign kit with standard or personalised graphics.

*Nexus 100 Recycling Station with Nexus Cup Stacker (holds up to 50\* used cups).*

## Nexus® 100 Duo Recycling Station

Combines the popular Nexus 100 Duo multi stream recycling bin with dedicated cup recycling features, to offer an all-in-one solution for waste collection and recycling within one space-saving unit.

### **Station includes:**

2 x 50 litre recycling streams.  
Centrum or Nexus Cup Stacker.  
8 litre waste liquid side pod.  
Choice of standard graphics.

**Optional:** Foamex sign kit with standard or personalised graphics.

(holds up to 70\* used  
cups).

# Back of House and Retro-fit Solutions

The versatile Centrum and Nexus Cup Stackers can be utilised in either front or back of house environments. Supplied with a choice of fixings for wall mounting or fitting to the side of an existing Nexus 100 Recycling Bin to create a station with cup recycling facilities.

## Centrum™ Cup Stacker

A stainless steel stacker for up to 70\* used paper cups to be stacked correctly for collection.

Its lightweight body and smooth emptying process, make it easy to operate. The stainless steel body with brushed finish and removable, 100% dishwasher safe drip tray, make it easy to clean.

## Nexus® Cup Stacker

This compact and cost effective stacker can collect up to 50\* used cups and is ideal where a smaller solution is required.

It is lightweight and easy to clean with a removable, 100% dishwasher safe drip tray. The quick release mechanism provides a swift operation when emptying the cups for collection.

\*Quantity based on 16oz cups. Stacker takes small, medium and large cups.

## NEW Electra™ Cup Recycling Unit

The Electra™ Cup Recycling Unit is available in two sizes with an open-topped design for ease of use.

The Electra single model contains two cup stackers that hold up to 50 cups each, drip trays for containing any liquid beneath the stackers and an 8 litre liquid reservoir to collect waste liquid separately before depositing cups into the stacking tubes.

The duo/trio Electra 170L model can be specified as a single cup recycling and single waste stream station, a single cup recycling and double waste stream station, or a double cup recycling unit.

### **Single Unit includes:**

2 x removable cup stacking tubes for up to 50 cups each.

1 x 8 litre liquid reservoir.

Drip tray.

Choice of standard graphics.

### **Duo Cup Recycling Unit includes:**

4 x removable cup stacking tubes for up to 50 cups each.

2 x 8 litre waste liquid reservoir.

2 x drip trays.

Choice of standard graphics.

### **Duo/Trio Cup & Waste Recycling Station includes**

2 x removable cup stacking tubes for up to 50 cups each.

1 x 8 litre waste liquid reservoir.

Drip tray.

1 x 85 litre or 2 x 40 litre sack retention system for additional waste and recycling

Choice of standard graphics.

## NEW Nexus® Evolution Cup Recycling Station

Helping you to implement an efficient cup recycling programme, our cup and liquid aperture allows the easy collection of up to 100 used cups and disposal of 8 litres of residual liquid. The unit also features two 40L colour-coded aperture panels of your choice to create your own unique Cup Recycling Station.

The dedicated Cup Recycling Station will ensure that this waste does not contaminate other recyclable streams and it will also make bulk collection easier, enabling you to increase your cup recycling rates and save money on your waste collection too!

### **Station includes:**

*2 removable cup stacking tubes for up to 50\* cups each.*

*1 x 8 litre waste liquid reservoir.*

*2 x 40 litre sack retention systems for additional waste and recycling with dedicated aperture panels.*

*2 x divider kits to separate waste streams.*

*Choice of standard graphics.*

**Optional:** Foamex sign kit with standard or personalised graphics.

# Cup Recycling Bins:

## Envoy™ Cup Recycling Bin

A purposely designed, D-shaped recycling bin which is ideal for siting near vending machines. It features a cup-stacking liner and separate waste liquid funnel for ease when emptying.

## Eco Nexus® 60 Cup Recycling Bin

A compact and cost-effective solution which is ideal for office environments. It is specially designed to collect used cups and waste liquid in a separate reservoir.

## Eco Nexus® 85 Cup Recycling Bin

With a separate reservoir so both liquid and cup waste can be collected separately, the Eco Nexus 85 is the perfect recycling solution for canteens and cafeterias.
