

# VILLAGE GATEWAYS

---

# GLASDON GATEWAY

Creates an attractive, highly visible display for signage, perfect for approaches to towns and villages or entrance areas to other premises. It can also be used for traffic calming purposes, by alerting motorists of a speed change and encouraging drivers to slow down.

---

# EVERWOOD™ MATERIAL

Is a specially formulated blend of Durapol® material, which emphasises the grain-like appearance of timber. Unlike timber it requires no regular surface treatments such as staining or painting and the material will be unaffected by brine, bacteria, rot, mould and insects.

Everwood material is easy to clean, requires minimal maintenance and can be recycled at the end of its life. Like Durapol material, it has been formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure.

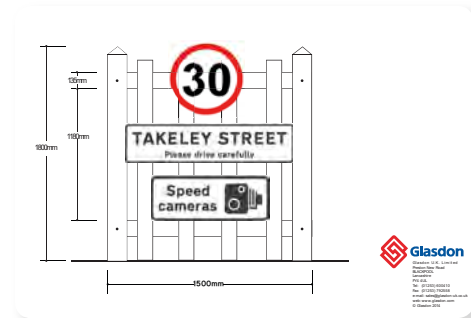

# DESIGN & PERSONALISATION

We offer a free, in-house personalisation service to help you visualise how your product will look with your corporate identity.

# Customise your own Gateway choosing from the following options:

## Standard Options

### Width

960mm, 1500mm or 2000mm. Ornate model: 1690mm.

### Number of Slats

Available with 1, 2, 3 or 4 slats.

### Crossbar

Creates a traditional farm gate appearance.

*Non-standard options are available, please contact us with your requirements.*

Light Oak

Dark Oak

White

## Height

1800mm (1300mm above ground) or 2300mm (1800mm above ground)

Ornate model: 2300mm

Recommended depth below ground: 500mm

Gateway can be easily cut down to the desired height.

## Signage

We can supply you with custom-made signage to your specification.

If you'd prefer, you can use your own signage, either existing or from your usual supplier: if that's the case, we recommend you send us the exact dimensions of the sign so we can ensure a perfect fit.

## Fixing

Below Ground Extended Base.

We strongly recommend that all models are installed 500mm below ground level into concrete foundations (please refer to installation instructions).

To create a neat finish, the concrete foundations may be topped with turf or tarmacadam to match the surrounding area (avoid contact with hot tarmacadam as this will seriously impair the performance of the product).

# CO-ORDINATING EVERWOOD™ MATERIAL LITTER BINS & SEATS

The Elwood™ Seat is a low maintenance timber-effect bench with a back rest. This outdoor seating product co-ordinates with Sherwood™ Litter Bin and Glenwood™ Post to provide a matching set of street furniture ideal for parks, recreational areas and rural locations.
