Glasdon Jubilee™ Litter Bin

Personalisation

Recycling Options

A traditionally designed, aesthetically pleasing litter bin. The Glasdon Jubilee litter bin offers exceptional features. A hidden lift and lock mechanism engages in a 3-point interlocking slam shut door. The unique ribbed design deters fly posting and graffiti. The domed hood makes the litter bin strong and robust and helps to prevent littering. Recycling bin variants can also be supplied.

Design Features

- Domed textured stubber plate in Gold or Gun Metal Grey.
- Domed hood.
- Four apertures.
- Anti-flyposting finish.
- Robust interlocking slam-shut door.
- Concealed knuckle hinge.
- Keyed or foot activated keyless lock.
- Liner tray/bait box area.

Optional Extras

- Choice of Universal Ashtray Kit (Gold or Gun Metal Grey) or 3L Ashtray Kit (Gun Metal Grey).
- Glasdon Jubilee Aperture Stubber Kit.
- A4 poster frame.
- Metal liner elastic sack retention.
- A5 personalisation (supplied as a vinyl sticker or polycarbonate plaque).
- Aperture Blanking Panels.
- Aperture Flap Kit.
- Choice of ground fixing options.

Materials

Bin body & door: Durapol® material
Liner: Zinc-Coated Steel or Durapol

Specifications

Bin volume: 130 litres
Liner capacity: 110 litres
Height: 1158mm
Width: 598mm
Depth: 553mm
Weight: 26kg (with steel liner)

Unique locking mechanism with a 3-point interlocking door.

Streamline Jubilee™ Litter Bin

The Streamline Jubilee litter bin is ideal for areas such as bus stops and narrow streets where larger bins become an obstruction. The streamline shape of the bin allows the bin to be sited in almost any location. Recycling bin variants can also be supplied with recycling panels and graphics.

Design Features

- Domed textured stubber plate in Gold or Gun Metal Grey.
- Domed hood.
- Two apertures.
- Anti-flyposting finish.
- Robust interlocking slam-shut door.
- Concealed knuckle hinge.
- Keyed or foot activated keyless lock.

Optional Extras

- Ashtray Kit (Gold or Gun Metal Grey).
- Aperture Stubber Plate Kit.
- A4 poster frame.
- Metal liner elastic sack retention.
- Aperture Blanking Panels.
- Aperture Flap Kit.
- Choice of ground fixing options.

Materials

Bin body & door: Durapol
Liner: Zinc-Coated Steel or Durapol

Colours

Specifications

Bin volume: 85 litres
Liner capacity: 70 litres
Height: 1170mm
Width: 583mm
Depth: 406mm
Weight: 23kg (with steel liner)

Topsy Royale™ Litter Bin

A traditionally styled litter bin, Topsy Royale will enhance any environment and is well suited to town centres and heritage streetscapes. Topsy Royale will also complement modern architectural styles. The circular design of the Topsy Royale creates a robust structure and provides ease of pedestrian flow when located in busy streets. Topsy Royale is purpose designed for easy emptying without the need for strenuous lifting. The whole, lightweight bin body lifts off the base, the liner then requires only a short lift over the plinth.

Design Features

- Domed hood.
- Chamfered apertures.
- Decorative banding recesses and 'Bin-It' symbol.
- Anti-flyposting finish.
- Choice of keyed lock or keyless locking system.
- Lift off bin hood.

Optional Extras

- Hood mounted ashtray.
- Cigarette stubber plate.
- Sack retention.
- Durapol liner.
- Aperture flaps.
- Firepire® fire extinguishing device.
- Personalisation.
- Choice of ground fixing options.

Materials

Bin hood: Durapol (100% recycled material)
Bin base: Durapol
Liner: Zinc-Coated Steel or Durapol

Nexus® 200 Litter Bin

Nexus 200 is a twin liner litter bin with a slimline, elliptical shape which takes up minimal space on the pavement, whilst the apertures are visible from all angles. Its large 200 litre capacity reduces the need for frequent emptying. Recycling bin variants can also be supplied with recycling panels and graphics.

Design Features

- Cigarette Stubber Plate in Gold or Gun Metal Grey colour.
- Curved hood prevents littering.
- Two robust interlocking slam shut doors.
- Single keyed twin door provides easy emptying and cleaning.
- Large recessed lifting handles, suitable for use with a gloved hand.
- Extended aperture ledges help to ensure litter enters the liner.
- Unique corrosion free locking mechanism.
- Integrally moulded ridges deter flyposting and graffiti.
- Includes Bin-it™ symbols in Gold or Silver.
- Bolts for permanent ground fixing into pavements or concrete.

Optional Extras

- Glasdon FireSafe™ Automatic Suppression Device. (We recommend the rear aperture panels are blanked off when using Glasdon FireSafe).
- Cigarette Ashtray with a 5 litre liner in Gold or Gun Metal Grey colour.
- Aperture Blanking Panels.
- 2 x 100 litre Durapol material liners.
- Sack retention.
- Base Tray.
- Choice of ground fixing options.

Materials

Bin body & door: Durapol
Liners: Galvanised Mild Steel or Durapol

Specifications

Bin volume: 2 x 136 litres
Liner capacity: 2 x 100 litres
Height: 1177mm
Width: 1169mm
Depth: 591mm
Weight: 51kg (with steel liner)

Colours

Nexus® 360 Litter Bin

Nexus 360 combines contemporary style with robust construction and is designed to co-ordinate with the Nexus 200. Nexus 360 will house a 360 or 240 litre wheeled container, which is ideal for mini bring sites, promenades, lay-bys and town centres. Nexus 360 has a curved sloping body to prevent littering and features a robust 5-point interlocking slam shut door. Recycling bin variants can also be supplied with recycling panels and graphics.

Design Features

- Large recessed lifting handle, suitable for use with a gloved hand.
- Integrally moulded ridges deter flyposting and graffiti.
- Unique corrosion free locking mechanism.
- Extended aperture ledge helps to ensure litter enters the liner.
- Base ramp aids insertion/removal of the wheeled container.
- Bolts for permanent ground fixing into pavements or concrete.

Optional Extras

- Glasdon FireSafe Automatic Suppression Device.
- Litter Graphics Kit.
- Choice of ground fixing options.
- Aperture stubber plate kit.

Material

Bin body & door: Durapol

Specifications

Liner Capacity: 240 litre or 360 litre wheeled container
Height: 1512mm
Width: 835mm
Depth: 1071mm
Weights:
Housing: 39kg (no wheeled container)
Door: 11kg

Colours

Metal Chieftain™ Litter Bin

Metal Chieftain has an Armortec® coating for outstanding durability, which minimises the requirement for the expensive refurbishment that is often associated with metal litter bins. Metal Chieftain has a large front opening hinged door, to allow unrestricted access to the liner. The extremely robust hinge incorporates a stainless steel reinforcing rod that runs the full length of the door. The tough construction of the litter bin makes it ideal for unsupervised areas, as it is fire, corrosion and vandal resistant.

Design Features

- Bin-it symbol in Gold or Silver.
- Two decorative bands in Gold or Silver.
- Anti-burst lock – key to open, slam to lock.
- Zinc-coated steel liner.

Materials

Bin body & door: Armortec coated steel
Metal liner: Zinc-Coated Steel

Electra™ Litter Bin

60 Litre Model

A contemporary twist on a classic metal litter bin, Electra combines stylish simplicity with exceptional strength and functionality. Designed with the modern environment in mind, the unique aesthetic of Electra will transform any location.

The streamlined elegance of Electra is not only visually sophisticated but also allows ease of siting. Electra is an environmentally friendly litter bin with body panels produced using Vandalex® material, and the framework manufactured from steel with Armortec coating. Both materials are 100% recyclable after the bins service life. Electra is also corrosion, vandal and fire resistant.

Design Features

- Available as a 60 or 85 litre capacity unit.
- Keyed cam lock.
- Full length door.
- Large apertures.
- Zinc-Coated steel liner or sack retention system.

Optional Extras

- Choice of ground fixing options.
- Personalisation.
- Free standing base kit.
- Hood mounted ashtrays.
- Aperture flaps.
- Side Blanking Panels.

 FRAMEWORK: UMBRA GREY

85 Litre Model

60 Litre Model

The Invicta litter bin is manufactured from 2mm thick mild steel with an Armortec coating which offers a very strong and robust construction and outstanding durability and weather resistance.

These high quality materials offer excellent resistance to vandalism, coastal sea spray and annual road gritting salt. This minimises the requirements for expensive refurbishment that is often associated with metal litter bins.

Invicta has a large front opening hinged door. This allows unrestricted access to the liner which reduces manual handling issues as the liner does not need to be lifted to be removed from the bin. Four large apertures encourage use and a Durapol base tray that sits beneath the liner helps prevent the build up of waste in the bottom of the bin.

Design Features

- Extremely strong construction offers long life.
- Armortec coating offered as standard.
- Robust stainless steel hinge and lock mechanism.
- Quick and easy to use slam to lock door.
- Four large apertures with angled shelves ensure waste enters the liner.
- Durapol material base tray.
- Traditional style to co-ordinate with any environment.

Optional Extras

- Hood mounted ashtray or cigarette stubber plate.
- Two decorative bands in Gold or Silver. (FOC)
- Litter Legend graphics kit in Gold or Silver. (FOC)
- Bin-it symbol in Gold or Silver. (FOC)

Integro City™ Cigarette and Litter Bin

An easy to use litter/ash bin with a 35 litre litter capacity and 5 litre ash capacity. The ergonomic stubber height is ideally placed at the front of the unit for ease and speed of use. The litter aperture will encourage disposal of small waste items usually found in smoking areas, e.g. crisp packets, empty cigarette packets and cellophane wrapping. This will help reduce the likelihood of users blocking the ash grille holes with litter. The Integro City must be permanently sited and has fixing points sited in the base. Alternatively the unit can be post or wall mounted.

Design Features

- Features an ash grille with large stubbing area.
- Supplied with ash and litter zinc-coated steel liner.
- Narrow footprint.
- Front opening door with slam lock feature.
- Includes Cigarette graphic.

Optional Extras

- Choice of ground fixing options (including Post Mounting and Wall Fixing Kits, please contact our sales office for details).
- Personalisation.
- Aperture flap kit.

Materials

Bin body: Durapol
Ash grille: Stainless steel
Liner: Steel

The Modus is a high capacity litter bin housing, which securely contains a wheeled bin in a tidy manner. Modus creates a focal waste collection point and transforms any old/unsightly litter containers into an attractive waste collection centre. Recycling variants can be supplied with recycling apertures and graphics.

Design Features

- Choice of Modus 770 which can house a 600 litre, 660 litre or 770 litre wheeled bin or Modus 1280 which can house a 1100 litre or 1280 litre wheeled bin.
- Vandalex material frame provides exceptional strength and is vandal and weather resistant.
- Extremely robust panelling is constructed from 100% recycled material.
- Durapol hood encloses the wheeled bin inside the unit, offers weather protection and provides security.
- Hood peak provides extra weather protection to the apertures.
- Chute behind the apertures helps to ensure that litter enters the wheeled bin.
- Front opening design with door stay feature provides easy access to the wheeled bin inside.
- Features a 3-point locking system.
- The door features a handle and stainless steel hinge.
- An adjustable door wheel enables easy opening of the door and levels the door on uneven surfaces.
- Base skirting provides a guard around the base of the housing, to minimise the risk of pests entering the housing and also conceal the door wheel.
- Supplied fully assembled.
- Bolts for permanent ground fixing into concrete.

Optional Extras

- General Waste aperture kit.
- Polycarbonate Graphics kit.
- Personalised artwork.
- Food waste aperture and chute.
- Blanking aperture – for storage of equipment.
- Wing lock.
- Glasdon FireSafe Automatic Suppression Device.
- Choice of ground fixing options.

Visage™ Screen System

The Visage Screen system is ideal for commercial use, housing developments, bring sites, parks and open spaces, to conceal wheeled bins in areas where large capacity is high priority. The modular construction of the Visage Screen System allows units to be built up to form two sided, three sided and four sided (complete with door) screens. Recycling variants can also be supplied with recycling graphics.

Design Features

- Choice of two sided, three sided and four sided screens.
- Units can screen 600 litre, 660 litre, 770 litre, 1100 litre or 1280 litre wheeled bins.
- Low panels provide easy access to open the lid of the wheeled bin behind the screen.
- Vandalex frame provides exceptional strength and is vandal and weather resistant.
- Extremely robust panelling is constructed from 100% recycled material.
- Bolts for permanent ground fixing into concrete.

Four sided screen:-

- Front opening door with door stay feature.
- Features a 3-point locking system.
- The door features a handle and stainless steel hinge.
- Adjustable door wheel.

Optional Extras

- Polycarbonate Graphics kit.
- Base skirting.
- Wing lock (four sided screen only).
- Joining Vandalex extrusion (for alternative screen layouts).
- Personalisation.
- Choice of ground fixing options.

Metal Fido dog waste bin is ideal for unsupervised areas where there is a high risk of vandalism. The bin requires minimal maintenance as its robust construction provides outstanding strength.

Design Features

- Robust metal construction.
- Two sizes available – a 35 litre model and a 50 litre model.
- Dog Lead Hook.
- 1.5mm steel with Armortec coating.
- Pivoting lid with lid stay.
- Sack retention system.

Optional Extras

- Metal liner for Metal Fido 50.
- Choice of fixing options.

Nexus® Shuttle Food Waste Bin

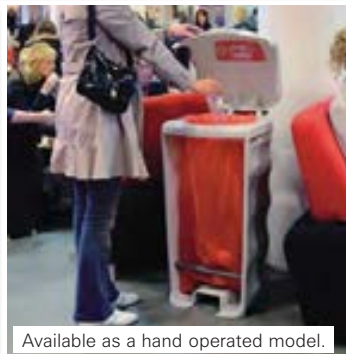

Solid Liner Model

Sack Retention Model

A "shuttle" system can be implemented, so when a liner is full it can quickly be replaced with an empty one keeping the bin operational.

Available as a hand operated model.

Nexus Shuttle food waste bin is perfect for commercial kitchens, canteens and any other areas where food is prepared or consumed. The easy to use foot pedal and large aperture make food waste disposal hygienic and effortless. Available with a solid liner or a sack retention system, to suit your requirements.

The slimline design of Nexus Shuttle takes up minimal space and the ergonomic height of the unit means it can be stored under worktops when not in use.

Design Features

- Quick and easy to empty – reduces manual handling problems.
- Manufactured from Durapol material, offering exceptional strength and durability.
- Smooth contours ensure there are no dirt traps and allows for easy cleaning and disinfecting.
- Lid overlaps the bin body to help contain any odours from within the bin.
- Anti-slip rubber feet.
- Lid override mechanism allows the lid to be propped open during busy shifts.
- Robust stainless steel hinge rod and mechanism.
- Lid stay mechanism enables quick and easy access for cleaning and emptying.
- Slow closing lid mechanism ensures the lid closes with minimal sound.

Solid Liner Model

Design Features

- Large 60 litre capacity liner.
- Liner lid seals the liner and ensures waste is contained until emptying.
- Liners can be stacked for ease of storage and transportation.
- Moulded liner handles provide a comfortable grip for the user.
- Liner wheels allow the unit to be easily manoeuvred.

Sack Retention Model

Design Features

- Holds a large 60 litre capacity corn starch sack.
- Removable sack support shelf can reduce the capacity to 30 litres and/or 40 litres.
- Quick and easy to empty/replace the sack.
- Sack retention bands hold the sack neatly in place.
- A sack retaining bar protects the sack and helps to contain it within the bin body.

Optional Extras

- Recessed Food Waste graphics.
- A4 sign kit.
- Corn Starch sacks.
- Bungee cord (Solid Liner Model only).
- Available as a hand operated model for other waste stream collection.

Materials

Litter Bin Fixing Options

Post Mounting Litter Bins & Dog Waste Containers - Fixing Details

Ground-LOCK™ System

Glasdon GROUND-LOCK system is a versatile fixing system for securing post-mounted litter bins in 'soft earth' or unsurfaced ground. Quick and easy to install, without excavating or concreting, the system has a unique 'remove and resite' locking feature, so bins can be relocated. GROUND-LOCK system is also vandal-resistant, the secure siting keeps waste in its place. (GROUND-LOCK system fixing tool required. One tool supplied free with every 3 GROUND-LOCK systems ordered.)

Extended Base Post Fixing System

A secure below-ground permanent fixing method for use with SUPER TRIMLINE 50 Range (page 22) and RETRIEVER Range (page 26-27). (Post may vary according to product.)

Specialist Lamp Column Adaptor

Accommodates changes of lamp column diameter. Allows banding to be positioned away from electric cover. For use with SUPER TRIMLINE 50 Range (page 22) and RETRIEVER (page 26-27).

Extra durable ARMORTEC coating

Glasdon High Performance Materials

Glasdon products are manufactured from high performance materials and undergo stringent quality checks to ensure durability and best value. We have accreditation with ISO 9001:2008, underlining our commitment to provide quality products.

Throughout this brochure reference is made to the following materials:

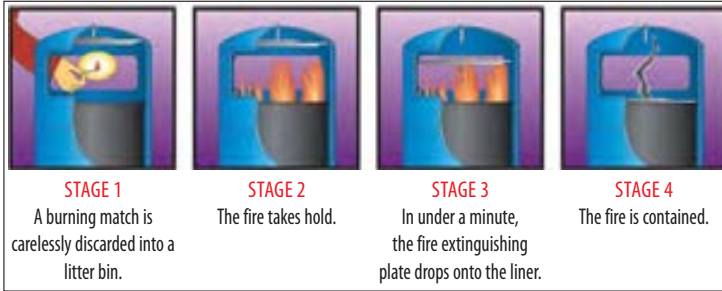

- Armortec®** corrosion resistant coating is specially formulated to extend the life of Glasdon metal products and components used externally.
- Duraplene™** material comprises a range of polymers which have been formulated for internal applications offering reliability and low maintenance.
- Duraplus™** material is a polymer specially engineered to provide enhanced resilience, which gives improved recovery from impact.
- Durapol®** material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol will not chip or rust, is easy to clean and never needs painting.
- Duracore™** material features a tough outer wall of Durapol® material with an internal reinforcing wall of cellular construction, which increases rigidity and offers outstanding performance benefits. Duracore will not chip or rust, is easy to clean and never needs painting.
- Ecoboard™** material is manufactured using a combination of virgin polymer and post consumer plastic waste to create a very robust and strong panel. Ecoboard will not chip or rust, is easy to clean and never needs painting.
- Enviro-pol®** material is manufactured predominantly from post-consumer plastics. By balancing these uncontaminated recycled waste materials, the result is a remarkably versatile product with many applications and benefits. Enviro-pol will not chip or rust, is easy to clean and never needs painting.
- Everwood™** material is a realistic timber grain polymer, which requires minimal maintenance. Everwood is vandal and weather resistant, will not rot, warp or crack.
- Vandalex®** material is an aluminium alloy engineered to produce a high modulus of elasticity, which offers increased impact absorption properties. Its anodised finish will not rust, is easy to clean and never needs painting.

All Glasdon products manufactured from Durapol, Duraplus, Duracore, Enviro-pol, Vandalex and Stainless steel can be recycled at the end of their service life.

FIREXPIRE® - Fire Safety Device

An optional extra on Glasdon hooded litter bins, FIREXPIRE device is a fire extinguishing plate fitted within the bin top. Should a fire break out inside the bin, a special replaceable, heat responsive device releases the plate which then seals off the mouth of the liner and snuffs out the fire through oxygen starvation. Replacement of the heat responsive device using only a screwdriver resets FIREXPIRE device on site.

Scan to see Firexpire in action!

(Firexpire is an effective low cost auxiliary device and must never replace primary fire prevention measures. Obstructions preventing the plate from dropping may adversely affect the function of the unit and as many Firexpire devices are used in unsupervised locations, regular inspection and immediate replacement of any damaged or distorted components is essential.)

GLASDON FIRESAFE™

is an automatic fire suppression device fitted within the hood of the bin. Should a fire break out inside the bin the device is activated. Glasdon FireSafe is an effective low cost auxiliary device and must never replace primary fire prevention measures. A regular inspection/maintenance programme should be introduced to ensure the device is in working condition or has discharged and therefore needs replacing.

SITING OF NEXUS 360, GRAMPIAN, MODUS & VISAGE

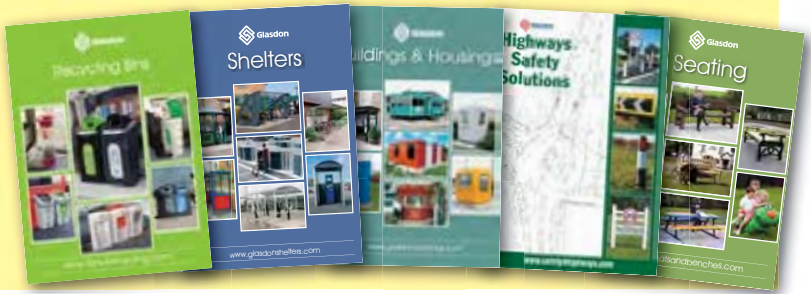

**For the Nexus 360, Grampian, Modus and Visage, we recommend that a risk assessment is undertaken to identify an appropriate location for your waste collection units. In order to reduce risk, some organisations decide to place the units a minimum of 5 metres away from buildings. Any potential risk can be further reduced by maintaining a regime of regularly emptying the unit. You may also wish to consider installing a Glasdon FireSafe on the Nexus 360 and Modus.*
