ELEMENT™

GRP HOUSING

The cost-effective solution for securely housing equipment in a wide variety of industrial applications.

- Electrical and switchgear enclosure
- Communications network housing
- Valve and transformer housing
- Chlorination plant housing
- Monitoring and control room
- Generator housing
- Power supply room

Element GRP Housing is available in a range of sizes to suit your specification.

Its modular design and robust, weather and vandal resistant GRP panels offer flexibility as well as future expansion, enabling customers to grow their storage alongside their business needs.

Delivered fully assembled,
Element's capabilities can quickly
and easily be put to use on site.

ELEMENT™

GRP HOUSING

Element Housing offers a wide variety of door locks and door stay furniture. Options can be chosen online, with a dedicated team on hand to design CAD drawings to see how the final Element will look, as well as offer advice on fixing placements and suitability.

Element's modular design means that the housings can be specified in 1m length increments to suit your application.
