# NEW APEX™ CHEVRON

Our unique Apex Chevron board provides a complete 600mm single chevron sign. Apex is the ideal road marking solution for helping to improve safety on hazardous rural bends. Its small footprint is perfect for verges where space is limited.

## Design Features

- Small footprint ideal for narrow verges.
- Durapol® material body.
- Narrow, Belowground, Extended Base Installation – allows body to be installed into tight spaces.
- Apex LockFast™ Socketed Installation for ease of removal or replacement.
- Non-Twist Signage Supports - maintains the sign face alignment to the carriageway even after it has been hit.
- Fixed Sign - eliminates the chance of the sign slipping down the post to help lower maintenance costs.
- High Visibility Border Available - allows for greater visibility where the application demands it.

## SPECIFICATIONS

Materials		
Body	Durapol	
Socket	Durapol	
Socket Lock	Galvanised Steel	
Sign	Dibond / Retroreflective	
Chevron Size	600mm	
High Vis Yellow Border	75mm

Depth below ground	500mm	500mm

# NEW ORBITAL™ CHEVRON

For installation on low-approach-speed roundabouts, the Orbital Chevron is an innovative, all-in-one roundabout chevron system with integral illuminated 606 sign, that comes ready to install. Orbital Chevron is the first of its kind—offering users reduced energy costs and quick installation.

## Design Features

- 1W LED Power Consumption.
- Illuminated 606 Sign Face (450mm Diameter) meets TSRGD requirements.
- 24V Operation Above Ground – 230V mains supply stepped down to 'Safe Voltage'.
- IP67 Rated Subsafe™ underground box and lid - weather resistant and water ingress protected.
- Belowground Extended Base or Orbital Lockfast™ Socketed Installation.
- Durapol® material body.
- Option for Additional Signage – lower bar provides space for further signs such as roundabout names, advertising space etc.

## SPECIFICATIONS

# NEW NEOPOLITAN™ DELINEATOR POST

Standing at 1000mm tall, the Neopolitan Delineator Post is the newest cost-effective highway hazard and lane marking post.

## Design Features

- Manufactured from Reflexapol® material for excellent rebound performance and passive safety.
- Suitable for either bolt-down or socket installations—allowing customers to stock one type of post.
- Choice of retroreflective banding options to suit different applications.
- 600mm retroreflective banding option conforms to TSRGD requirements.
- Compact Square Base - Easy installation base requires minimal floor space for installation in areas where space is limited.
- Removable solution when coupled with LockFast™ Mini Socket and Quick-Release Socket Adaptor – key operated to prevent unauthorised removal or tampering.
- Passively safe - drive-through performance proven to BS EN 12767:2019 achieving 100-NE-A-NR in testing by Transpolis.

## SPECIFICATIONS

Height	1000mm
Body Material	Reflexapol® Material
Colours	Red or Black
