Glasdon Jubilee™ City 100

Food Waste Recycling Bin

The Glasdon Jubilee™ City 100 is a highly innovative food waste recycling unit, engineered to make regular food waste collections faster, easier, and more efficient. The compact unit is capable of collecting up to 100L of waste and is designed to serve both the public and the collection teams who empty it regularly.

For users, convenience is built in: the lift-up flap is smooth and simple to operate, while an optional foot pedal can be selected that allows waste to be deposited hands-free.

From an operator's point of view, the benefits are immediate. The small footprint makes it ideal for busy, narrow pavements, while Glasdon's unique liner and door system ensures quick, no-fuss emptying with standard mechanical-lift equipment. The 100L wheeled liner is equipped with a new unique slam-lock system, so servicing is fast, reliable, and hassle-free - keeping crews moving and collections on schedule.

The unit is compliant with the critical elements of the BS EN 840 standard for mechanical lifting systems.

The 100L capacity caters to a minimum of 15 flats based on a weekly collection of a full 7L food waste collection caddy. However, weekly food waste volumes can vary meaning that in most cases the bin will serve 30 or more flats.

WHEELIE BIN SCREENS & BIN HOUSINGS

These outdoor wheelie bin screens and housing systems are designed for both on-street locations and outdoor recycling centre usage at workplaces, restaurants and bring sites. Our robust screen systems are ideal for hiding unsightly, large-capacity outdoor wheelie bins to create a clear, attractive recycling station.

DOG WASTE BINS

To help keep pavements and open spaces clear of dog fouling, we produce a range of dog waste bins that are extremely strong and durable. Designed to be wall- or post-mounted, these dog waste bins will encourage owners to tidy up after their dogs, keeping areas clean and tidy.

Read our **FAQ** on the website about how to choose a dog waste bin.

SEATING

Enhance your great indoors and outdoors with Glasdon commercial seating and benches. Choose from a wide selection of traditional and contemporary styles, manufactured only with high-quality materials that ensures Glasdon seating and street furniture is renowned for its durability and long service life.

Lowther™ Seat

Personalisation Options

Optional personalised rectangular graphics or circular plaques with graphics can be supplied with the Lowther seat.

For more information on this service, including prices, please visit www.glasdon.com

Commemorative Plaques

The majority of Glasdon seats can be supplied with a stainless steel plaque that is laser etched with any dedication you would like.

Laser etching offers greater flexibility for your message - alternative engraving methods are generally limited to a fixed font and a maximum number of characters, but with laser etching we have the ability to include simple graphics.

We can even fit multiple plaques to the same seat, if needed.

Did you know we can offer polycarbonate coloured designs too.

VILLAGE GATEWAYS

Boundary Signage is the ideal way to promote your message to passers-by on the roadside, or to display woodland trails, village walks or points of interest. All our gateways are weather and vandal resistant, providing a low-maintenance, long-service life.

Take a look at more great GATEWAY pictures on flickr.

Glasdon Gateway

Glasdon Gateway

Glasdon Gateway

Customise your own Gateway choosing from the following options:

Standard Options

Width

960mm, 1500mm or 2000mm. Ornate model: 1690mm.

Number of Slats

Available with 1, 2, 3 or 4 slats.

Crossbar

Creates a traditional farm gate appearance.

L-Shape

Available in all widths, with between 1-4 slats and with or without a crossbar.

Non-standard options are available, please contact us with your requirements.

Light Oak

Dark Oak

White

Height

1800mm (1300mm above ground) or 2300mm (1800mm above ground)

Ornate model: 2300mm

Recommended depth below ground: 500mm

Gateway can be easily cut down to the desired height.

Signage

We can supply you with custom-made signage to your specification.

If you'd prefer, you can use your own signage, either existing or from your usual supplier: if that's the case, we recommend you send us the exact dimensions of the sign so we can ensure a perfect fit.

Fixing

Below Ground Extended Base.

We strongly recommend that all models are installed 500mm below ground level into concrete foundations (please refer to installation instructions). To create a neat finish, the concrete foundations may be topped with turf or tarmacadam to match the surrounding area (avoid contact with hot tarmacadam as this will seriously impair the performance of the product).

Alternatively, a Surface Mount Kit is available (please contact our sales office for information).
