

# Litter and Recycling Bin FIXING OPTIONS

*Allows the bin to be fixed to its location with minimal ground works to existing surfaces.*

- ✓ Requires groundworks
- ✓ Provides additional resistance to vandalism & theft
- ✓ Ideal for external use
- ✓ Bolts for concrete foundations (A) or paving slabs (B)

## A,B) Ground Fixing Bolts

## C) Concrete-in Anchors (Adjustable Depth)

*Use to overcome ground depth restrictions, optimise security, flexibility, and to eliminate surface bolts (when the bin has been removed).*

- ✓ Requires groundworks
- ✓ Provides additional resistance to vandalism & theft
- ✓ Ideal for external use
- ✓ Anchors can be adjusted in length

*Allows the bin to be sited flush with ground level, with minimised risk of trip hazards if removed.*

- ✓ Requires groundworks
- ✓ Provides additional resistance to vandalism & theft
- ✓ Ideal for external use
- ✓ Minimised trip hazard risk if the bin is removed

## D) Flush Ground Fixing

## E) Ground-Lock™ System

*Complete with a 'remove and re-site' locking system, best suited to bins sited on soft or unsurfaced ground.*

- ✗ No groundworks required
- ✓ Provides additional resistance to vandalism & theft
- ✓ Ideal for external use on soft or unsurfaced ground
- ✓ Unique 'remove and re-site' locking system

*Adds weight to the base of the container to secure the bin without the need for groundworks.*

- ✗ No groundworks required
- ✓ Ideal for external or internal use

## F) External Ballast

## G) Internal Ballast

## H) Concreting-in

*Sets the bin base directly into the concrete to permanently fix it to the ground.*

- ✓ Requires groundworks
- ✓ Provides additional resistance to vandalism & theft
- ✓ Ideal for external use
- ✓ Bin base set directly in the concrete (bolts not required)

*Provides extra stability for the container in locations where groundworks are not appropriate.*

- ✗ No groundworks required
- ✓ Ideal for marble or wooden flooring
- ✓ Ideal for external or internal use
- ✓ Provides a stable base for the bin

## I) Free Standing Base
