

Case Study

Bi-Rak™ Cycle Shelters

...don't compromise

PROBLEM IDENTIFIED

Pukka-Pies had identified a problem with cycle storage at their site in Leicester, which had been ongoing for a number of years. The number of staff cycling to work had been steadily increasing during that time, although there were no clearly defined cycle parking areas on site. This resulted in bicycles being left in unauthorised and exposed locations, which was not ideal for both staff or visitors to the premises.

THE SOLUTION

Steve Mansfield, Contractor for Pukka-Pies, heard about the Bi-Rak Cycle Shelter through an internet search and then arranged a meeting with the local Glasdon representative to discuss possible solutions to the problem. After the initial meeting, it was agreed that the Bi-Rak Shelter was the ideal choice, satisfying the appearance, service life and financial criteria specified by the client.

Pukka-Pies also selected a colour to suit their premises and base fixing plates, which allowed the shelter to be installed with minimal effort.

RESULTING BENEFITS

The Bi-Rak Cycle Shelters have proved to be a great success and offer many benefits, including:

- A structurally certified design that will withstand the most extreme UK weather conditions.
- High quality materials for a long service life with minimal maintenance.
- Delivered in fully assembled form for quick installation.
- Secure and sheltered facility encourages more staff to cycle to work.

WHAT THE CUSTOMER SAYS:

Steve Mansfield, Contractor for Pukka-Pies, commented:

“ The Bi-Rak Cycle Shelters were purchased to resolve a growing problem on site with staff cycle parking. The installation of the shelters has proved to be a great success, providing a secure and sheltered environment for staff cycles. The Glasdon solution from start to finish was second to none. ”
