

CASE STUDY

# Glasdon FOCUS ON *Durable Litter Bins and Seating* FOR WEST LOTHIAN COUNCIL

West Lothian  
Council

## PROBLEM IDENTIFIED

West Lothian Council decided to replace their existing seating and litter bins in parks as high levels of maintenance were required due to a number of factors. The seats were not durable, the timber slats on the seats were vandalised, and because the seating was sited near water they were prone to damage by algae growth.

The Council needed seating and litter bins that were robust, durable, vandal-resistant and required minimum maintenance.

## SOLUTION

West Lothian Council's Environmental and Protective Services contacted Glasdon for product information and a Glasdon Representative visited them.

For robust, vandal-resistant seating, the **PHOENIX SEAT™** and **ENVIROPOL® PICNIC TABLES** were recommended, as they provide a long, low-maintenance service-life. Both products are made from tough Enviropol, 100% recycled material, which offers greater strength and has the added benefit of being environmentally friendly.

To replace the existing litter bins, Glasdon UK recommended the **BRUNEL™**, one of the very durable litter bins in the Glasdon range. The Brunel is a breakthrough in litter bin technology; it combines traditional style with a thoroughly modern material. Constructed from revolutionary **Duracore™** material, the Brunel litter bin will retain its stylish good looks for many years, and therefore could reduce maintenance costs.

## RESULTING BENEFITS

Over a period of 18 months, Phoenix Seats, Enviropol Picnic Tables and Brunel Litter Bins have been purchased to be placed around the West Lothian area.

The Council are very pleased with the products they have purchased as they have retained their stylish appearance and are unaffected by the elements.

The Council are impressed with the strength and style of the **BRUNEL** and the **ENVIROPOL** furniture.

Benefits include:

- Extreme toughness
- Vandal resistance
- No rusting or chipping
- No painting required
- Easy to clean

All the benefits result in reduced maintenance costs.

Brunel has now been adopted for both park and street applications. An added benefit, therefore, is that the same keys can be used to empty the Brunel Bins sited in the parks and on the streets.

Mr Colin Bell,  
Assistant Client Manager,  
West Lothian Council said...

*" Since the introduction of the Phoenix Seat, Enviropol Picnic Table and Brunel Litter Bin, we have found that our initial requirements and expectations have been fulfilled and would recommend them in any other similar locations. "*
