SMOKERS' CANOPIES

Requirement Identified

The Vauxhall Holiday Park in Great Yarmouth was looking for a sheltered smoking area to accommodate guests outside the entertainment hall, which is the first building seen upon entering the site.

Solution

The customer was looking for a product with a stylish design, excellent build quality and offering value for money, whilst also complying with UK Smoking Legislation. Mr Biss, the Director, had previously purchased from Glasdon and had heard about their Carleton Canopy™ range from a promotional mailing. After discussing all aspects of the project, it was agreed that fifteen linked Carleton Canopies, together with four Carleton Perch Seats, would best suit their requirements.

Resulting Benefits

The Carleton Canopy has proved to be the perfect choice for the Vauxhall Holiday Park with many added benefits:

- **Attractive, effective smoking control, with smoking confined to a designated area**
- **Designed for wall-mounted installations, which is ideal for areas with limited space**
- **A simple and stylish curved design giving good weather-protection for occupants**
- **Manufactured from recycled cast aluminium and other high quality materials, which offer low maintenance and durability**
- **Quick and easy to install**

What the customer says...

“Our new Carleton Canopies have provided us with a solution which is aesthetically pleasing in a prominent part of the site and our customers are extremely pleased with this new facility.

We have once again found that Glasdon are able to offer us a cost-effective solution, combined with outstanding service, and would not hesitate to contact them again for any new requirements we may have.”

Mr Wayne Biss, Director, Vauxhall Holiday Park
