## Octagonal Ticket Office

# WINDERMERE LAKE CRUISES

www.windermere-lakecruises.co.uk

### Problem Identified

Ticket sales for lake cruises and steam train rides at the beautiful Lakeside location in Cumbria were not being maximised due to the location of the original ticket office in the main building facing Lake Windermere.

### The Solution

The management team of Windermere Lake Cruises contacted Glasdon and a site visit was made by our Area Sales Manager to discuss a modular building system which would be eye-catching, functional and complement the surrounding environment.

A return visit was made to the Glasdon factory at Poulton-le-Fylde to view the extensive options available and discuss a bespoke design with our Technical staff.

The octagonal Heritage building system was selected with a colour to match the existing scheme on site.

### Resulting Benefits

The Glasdon Heritage modular building has proved to be the perfect solution to Windermere Lake Cruises, resulting in the following benefits:

- A high-profile ticket sales point in the ideal location to catch the eye of the customer.
- A stylish appearance in keeping with the surroundings.
- A bespoke design tailored to provide maximum operator comfort and functionality.
- Factory-fitted electrics, worktops and shelving to minimise disruption and installation time on site.
- Minimal routine maintenance and long life span.
- Easily relocatable should site circumstances change.
- GRP panels providing ideal surfaces for vinyl signage.

### WHAT THE CUSTOMER SAYS:

*Windermere Lake Cruises Operations Manager  
Mr Chris Bell is delighted with their choice of octagonal  
Heritage building and commented as follows:*

**“ We are now able to maximise ticket sales thanks to the location of our Heritage modular building. Our sales staff are pleased with the layout and comfort levels of the octagonal kiosk. The friendly and expert advice provided by Glasdon has been first class and we will be contacting them for our future modular building requirements. ”**
